

4 Courses

Embedded Systems using C

Embedded C Programming
Essentials

ARM Cortex (STM32)
Fundamentals: Building
Embedded Systems

ARM Cortex (STM32) Deep
Dive: Mastering Embedded
Systems

Aug 16, 2024

Yaroslav Kishchuk

has successfully completed the online, non-credit Specialization

Embedded Software Development with C

This certificate acknowledges the successful completion of the Embedded Systems Specialization, demonstrating proficiency in designing, programming, and optimizing embedded systems using C.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
